"HeritAccess: access to culture and heritage in rural surroundings through the interactive digital experience"
PROJECT No 2022-1-ES01-KA220-ADU-000086106

INTRODUCTION

HeritAccess Database is the result of the work of 6 organizations from 5 countries who investigated during almost 1 year the accessibility features of the rural and wine heritage sites in their closest surroundings, in the frame of Erasmus+ Cooperation Partnership, in field of adult education.

With the objective of selecting and describing of at least 15 rural sites per project country (Greece, Italy, Serbia, Slovenia, Spain) during "WP2 – A2 Identification of the target groups' needs" project phase, the HeritAccess partnership surveyed more than 100 heritage managers, owners, staff members and responsible personnel of rural sites, inquiring the status of the place they work, organize and promote for their visitors.

The criteria to select each location and register it for the present database have been:

- Historical, artistic, architectural value of the site (including age of the site whenever applicable);
- Access for disabled people, including possible difficulties and barriers;
- Geographical closeness to the area of the project partners involved, for immediate impact.

Therefore, the present output presents 75 described rural and wine tourism-related sites that will be advised for improvements based in the future created project outputs, especially the HeritAccess Guide.

The result – input of WP2 – A3 - represents in a way the roadmap towards the progress made / to be made on accessibility in wine tourism field of these countries, and by extension, in Europe, in order to enhance the knowledge of wine culture and rural heritage among all adults, despite their abilities and conditions.

Out of these 75 sites, 5 (one per country) have been selected to be made accessible through 360° panorama, and then disseminated as HeritAccess Digital Experience: <https://heritaccess.novopano.de/>.

The authors and project partners thanks each and every of the winery and heritage site taking part to the activities that allowed the edition of the present database.

NAME OF THE RURAL SITE:	TERRE GROSSE
GEOGRAPHICAL LOCATION OF THE SITE:	ALONG THE RIVER PIAVE IN TREVISO PROVINCE, ZENSON DI PIAVE LITTLE TOWN
AGE OF THE RURAL SITE:	1931
HISTORICAL/ARTISTIC/ARCHITECTURAL VALUE OF THE SITE:	<p>"Terre Grosse" are the clayey lands where the vineyards are located, some with plantings dating back to the 1960s. On approximately 8 hectares grow both international varieties, such as Sauvignon and Cabernet Franc, and local varieties such as Glera, Manzoni Bianco 6.0.13, Verduzzo and Refosco dal Peduncolo Rosso.</p> <p>The most typical varieties of the Piave area stand out among all the varieties, such as Raboso and Grapariol, vines (and wines) that speak of the territory.</p> <p>Since 1931, when the company was founded with grandfather Pietro Toninato, 4 generations have followed and since 2012 the family have undertaken a path that aims at more careful and respectful management of the environment, using the most modern knowledge and technologies. In 2018, after 3 years of conversion, they obtained organic certification: the interventions on the vineyard exclude synthetic products and are aimed at creating a natural balance as much as possible. The grass remains high to promote biodiversity, insects useful for fighting parasites are introduced and the use of modern sensors and meteorological stations allows the development of any diseases to be monitored. Only natural fertilization, combined with careful selection of the shoots, allows us to reduce the quantity of bunches on the plants, guaranteeing greater quality.</p> <p>The family's history remains strongly rooted in this land: carrying forward this work is a way to make it relive every day with new emotions and motivations.</p>

NAME OF THE RURAL SITE:	BONOTTO DELLE TEZZE
GEOGRAPHICAL LOCATION OF THE SITE:	Located in the Piave River area, very near Treviso and Conegliano city
AGE OF THE RURAL SITE:	Very old site, 1420 (XV sec.)
HISTORICAL/ARTISTIC/ARCHITECTURAL VALUE OF THE SITE:	To enter the cellar you pass under an entrance portico which opens onto the "cortico" typical of the Treviso countryside of the 16th century composed of a double row of buildings which enclosed the characteristic elements of the time such as the cellar, the stable, the well, the dovecote. Elements that can still be found today in the Bonotto delle Tezze headquarters. The cellar consists of a two-storey barchessa. The upper floor, once used as a granary and for breeding silkworms, is now used as a fruit shed for drying grapes. The two rooms below house the old refinement vats. Next to this building stands a modern cellar, designed by the architect Toni Follina from Treviso.

NAME OF THE RURAL SITE:	PIEVE DI SAN PIETRO DI FELETTO
GEOGRAPHICAL LOCATION OF THE SITE:	SAN PIETRO DI FELETTO
AGE OF THE RURAL SITE:	VI-VII sec, Lombard Era
HISTORICAL/ARTISTIC/ARCHITECTURAL VALUE OF THE SITE:	<p>A beautiful church between Conegliano and Milane the Pieve di San Pietro di Feletto contains incredible frescoes. The clean-style Romanesque church was built in the 9th century and redone in between the 12th-13th centuries. The breathtaking frescoes were added in the 1500s, and they are a delight to see. It is definitely worth seeking out this church when you're in the area.</p> <p>Located on a hill outside San Pietro di Feletto, the church looks at the Alps foothills; it's popular with local weddings, and it's not hard to see why. There is a pretty portico that hides five frescoes. Step inside and you'll see the three-nave church holds a host of painted walls and ceilings to gape at. They are all around. Especially beautiful is the Chapel of San Sebastiano, its cross-vault ceilings and walls entirely covered in detailed frescoes.</p>

NAME OF THE RURAL SITE:	GREGOLETTO WINERY
GEOGRAPHICAL LOCATION OF THE SITE:	Miane, Conegliano, Vittorio Veneto
AGE OF THE RURAL SITE:	1600
HISTORICAL/ARTISTIC/ARCHITECTURAL VALUE OF THE SITE:	<p>The Gregoletto family can look back on a long vine growing and winemaking history evidenced by several historic documents showing that already at the beginning of the 17th century the family cultivated vines in the hills of Premaor di Miane. That history is highlighted, too, by the historic 17th century building that until today houses the estate's cellars.</p> <p>The family's winemaking activity got an even greater impulse after WWII, when Luigi Gregoletto began to produce wines that emphasize their origin by following strict quality rules.</p> <p>Today the estate's vineyards extend over 11 ha of hillside vineyards in the villages of Miane, San Pietro di Feletto and Refrontolo. During harvest the picking of the grapes is exclusively done by hand and in several triages by which only fully ripe grapes are selected. The bunches are pressed during the day and the musts of each single vineyard and parcel is fermented separately.</p>
